

FF Netto Icons Instructions for Use

FF Netto

The FF Netto icons match the FF Netto text fonts in width and size and are therefore perfect for text-icon combinations.

Border elements

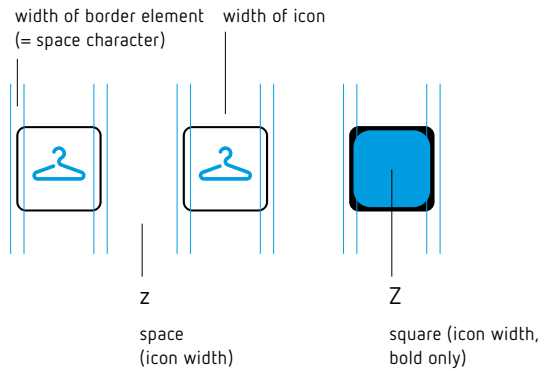

All icons have the same width, the border elements have the width of a space character.

Bold icons should rather not be used without border elements.

For correct display of vertical border rows please set the line spacing to font size $\times 1.56$ in your layout application.

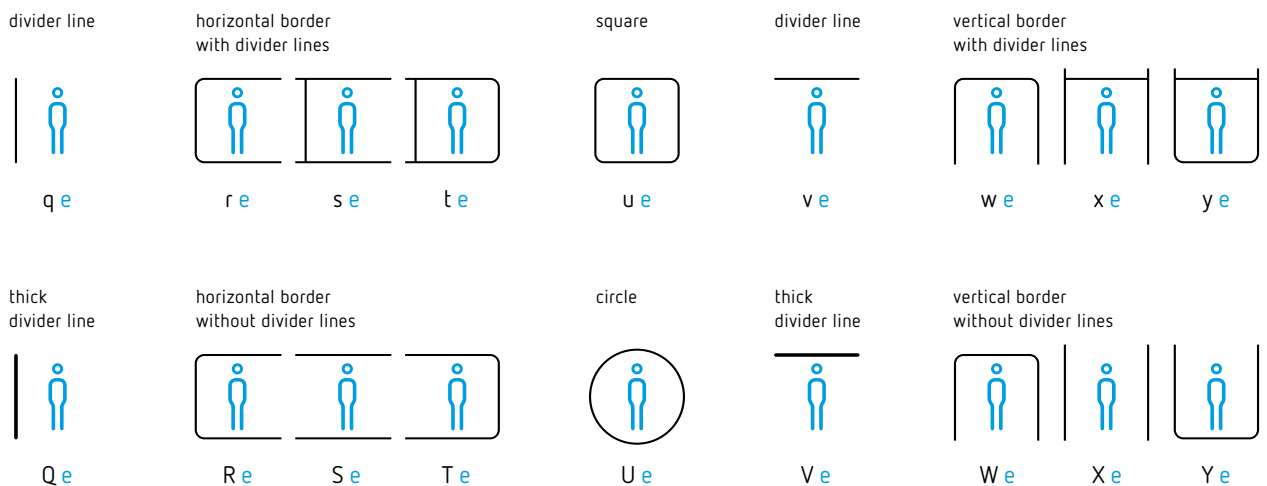

line spacing = font size $\times 1.56$

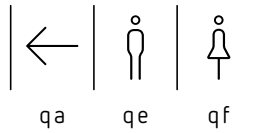

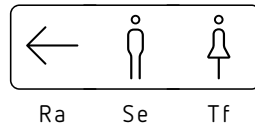

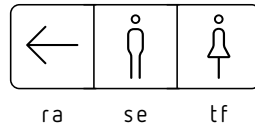

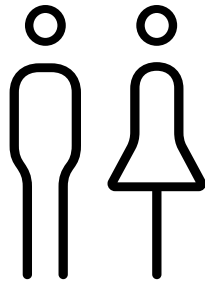

Possible combinations

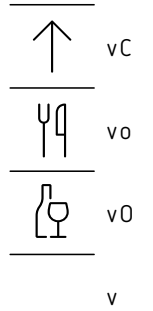

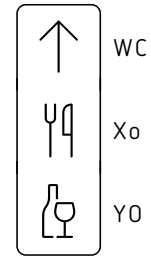

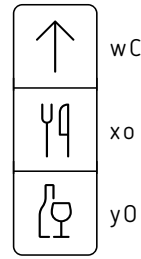

The border elements offer countless options for different pictograms to be grouped in various ways:
