

Nudista

Definition

Nudista is a monolinear, geometric sans-serif based on the proportions of the Purista typeface, released by Suitcase Type Foundry in 2008. This time, the forms are not based strictly on square shape, but rather on a pleasant oval, round shape. The letter outlines are smooth, even technician, the geometric precision is however compensated in places where it would get in the way of legibility and compromise the desired visual impact.
